CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusion

Based on the finding analysis of the data in the previous chapter, the purpose of this research was to know the description of students' ability in making compound sentence and to know the level of students' ability in making compound sentence the fourth semester English students of IAIN Bukittinggi in mastering compound sentence in academic year 2016/2017. The researcher gave a test in order to measure the level of students' ability in making compound sentence and to describe of their ability in making compound sentence.

Based on the finding of the research aboutstudents' ability in making compound sentence, it could be concluded that class C is categorized good. because the mean score is 87,34 lies in range 70 – 89 and the mean score of class D is 85.1 is categorized good which lies in range 70 – 89. All in all, the students' students ability in making compound sentence at the fourth semester English students is categorized good because the mean score is 83.36

B. Suggestion

Concerning the above conclusion, the following suggestion might be useful dealing with teaching and learning process in teaching English especially in making compound sentence. the researcher suggests as follow:

1. The students should be more payd attention in making compound sentence especially in use conjunction adverb. It is also suggested that the lecturer should teach components of conjunction adverb to their students.
2. Parents, family, and friends should motivate the students to learn English for increasing their knowledge about English.
3. The researcher would like to remind that it is not complete yet and still needs more revision and following up discussion.
4. It is expected that the lecturer could be use interesting technique to help the students in making compound sentence so that will help students discoveed their own ability in making compound sentence.
